Wednesday, September 27

What is MCS?

Multiple Chemical Sensitivities (MCS) is a medical condition and recognized disability where sensitization occurs from exposures to chemicals in fragrances and other products, leading to symptoms from exposure to these substances, impacting at least 1 in 34 Canadians (Statistics Canada 2020).

REGISTER NOW

TEST YOUR KNOWLEDGE:

Which of the following are advocated for better-accommodating people with MCS?

- A** Fragrance-free policies in public areas
- B** Better labelling of products with potential irritants
- C** Educating the public about MCS
- D** All of the above

Welcome back to our monthly update, here to keep you in the know about the latest happenings and what's coming up next at ASEQ-EHAQ.

Online Workshop:
MCS: It's Time to Catch Up with the Science!

Mark your calendars for September 27 at 6:45 PM EST for an in-depth online workshop on Multiple Chemical Sensitivities (MCS). Top experts will guide us through the medical, legal, and environmental aspects of MCS. This event is mainly intended for medical students but is open to the general public. Sign up now!

Movies Night: "Toxic Beauty"

Join us on Friday, September 22, at 7 PM EST for another enlightening Movie Night where we're screening "Toxic Beauty." Learn about the lurking dangers in the beauty industry!

MCS Awareness Campaign

We're excited to roll out our MCS Awareness campaign to elevate public understanding of Multiple Chemical Sensitivities. Through a series of informative posts, we'll shed light on what MCS is and how we can make our environments safer for everyone.

Upcoming Events in the Maritimes

October promises to be an action-packed month! We have a series of new events covering:

Legal Aspects of MCS: Province-specific legal workshops.

Medical Aspects of MCS: A comprehensive medical workshop.

Civil Society and MCS: An educational workshop for civil society in the Maritimes.
