## ECO-JOURNAL

March 2024

### News from ASEQ-EHAQ

Dear members and friends,

We are already in the month of March, and we have a couple of exciting events on the 21<sup>st</sup> and 25<sup>th</sup> of March. There will be simultaneous translation for both languages – English and French.

March 21, from 1 to 4 pm EST, a webinar titled ‘Improving Indoor Air Quality: A Conference on Healthy Living and Mould Prevention’. This event is funded in part by the *Société d’habitation du Québec* (the government of Québec’s social housing agency), organized by the Environmental Health Association of Québec in collaboration with the Environmental Health Association of Canada and COPHAN (*La Confédération des organismes de personnes handicapées du Québec*).

March 25<sup>th</sup> is a very special event. The Environmental Health Association of Québec will hold its 20<sup>th</sup> Annual General Meeting (AGM) and the Environmental Health Association of Canada will have reached its 2<sup>nd</sup> year. These are great milestones for our two groups. We will have a Round Table discussion with leaders in the fields of law, environment, disability, health, and more. We hope that you will join us at this event titled ‘Multiple Chemical Sensitivity – The Strategic Path Forward’. This will be followed by the AGMs of both groups. The agenda is as follows:

Round Table Discussion: 2 – 4 pm EST

AGM: 4:15 -5:30 pm EST

In addition to the above, we have been giving workshops across Canada, and making new connections with other groups.

We are also collecting data from our community to effect change. If you have not participated in them, we ask that you kindly do so. Also, please share these links with your social media and other networks.

[Healthcare Accessibility Survey](#)

[Survey on Product Labelling](#)

[Scent Boosters and Accessibility – Follow-up survey](#)

We thank you in advance for taking the time to fill in these surveys and we assure you that we will be using the data to work for the change that we need to see happen for Multiple Chemical Sensitivity (MCS) in Canada. Do you have a story you would like to share in the newsletter? Please contact us! Your stories have the power to make great changes.

We wish you a healthy month of March.

Warm regards,

Rohini Peris, President

Michel Gaudet, Executive Director
