Subject: Federal Election 2025 – Support for Canadians Living with Multiple Chemical Sensitivity (MCS)

Dear [Candidate's Name],

I am writing on behalf of the Environmental Health Association of Canada (EHAC-ASEC) to respectfully ask that your campaign recognize and support the needs of Canadians living with Multiple Chemical Sensitivity (MCS)—a recognized disability that affects over 1.13 million people across the country (Statistics Canada, 2020).

People with MCS are often excluded from public services, workplaces, and housing due to the widespread use of chemical products. We urge your campaign to:

- Commit to implementing fragrance-free federal policies
- Support research, data collection, and medical recognition of MCS
- Invest in accessible housing and services for people with MCS

We also invite you to attend the [RESILIENCE Conference](#) on MCS, May 1–2, 2025.

We look forward to your position on this issue.

Sincerely,

[Your Name]
