[office@aseq-ehaq.ca](mailto:office@aseq-ehaq.ca)

### Who we are

The ECRoB Project is partly funded by the Government of Canada's Social Development Partnerships Program – Disability Component. Together with our dedicated partners, we aim to engage with diverse communities across Canada, sharing knowledge and advocating for the rights and protection of individuals with MCS. Through collaboration, we're building a unified movement for healthier environments across the nation.

### Project goals

Our primary goal is to raise awareness about the biological aspects of Multiple Chemical Sensitivity.

#### SOCIAL

The aim is to build a robust network of educators who can deliver workshops and educate organizations about disabilities and necessary accommodations.

#### LEGAL

This goal focuses on strengthening ties between legal, medical, environmental, and disability groups, creating a supportive, interconnected community that can work together

### Resources

#### Legal Events Across Canada

#### Medical Aspects of Multiple Chemical Sensitivity (MCS)

#### Fragrance-free research hub
